INTRODUCTION

This report presents a wide range of socio-economic information on the 57 Manitoba provincial electoral divisions (1989 amended boundaries). The data presented in this report was provided by Manitobans during the 1986 Census.

The Manitoba Bureau of Statistics developed the special geographic referencing (geo-coding) required to produce these provincial electoral division profiles. The population totals match Elections Manitoba estimates except:

1) The Census data does not include population estimates for the 16 Indian Reserves not enumerated in the 1986 Census. Elections Manitoba figures include an estimate of 8,216 persons on these Indian Reserves, spread over 8 of the 57 electoral divisions.

2) The MBS produced profiles are based on the aggregation of block-face (i.e. side of a city block) data within Winnipeg and enumeration area level data for the remainder of Manitoba. Where electoral division boundaries do not respect this geography (the boundaries split an enumeration area into 2 or more parts) and Elections Manitoba has manually split the area, then the population figures may not match.

This report consists of a Selected Comparisons section using maps to graphically display individual provincial electoral division characteristics, followed by 11 tables of characteristics for each of the provincial electoral divisions.

In the tables, electoral divisions are presented alphabetically six to a page. All 57 electoral divisions are shown for each table of characteristics, before proceeding with the next table. The Manitoba level characteristics are presented at the end of each table.

Detailed profiles for each of the 57 provincial electoral divisions are available from MBS at $15. per division, with a discount for a volume purchase. One copy of each of the 57 electoral divisions is priced at $285. These detailed individual electoral division profiles provide a full range of information available from the 1986 Census as well as providing a comparison to Manitoba level data. Population estimates for the new electoral divisions are also provided from the 1981 Census.

The data presented in the 57 individual provincial electoral division (1989 amended boundaries) statistical profiles may be purchased from MBS in a micro-computer readable form for $495.

The Selected Comparisons (maps) section of this report may also be purchased separately for only $25.

For further information on the statistical profiles or to order any of these data products, please contact Wilf Falk at 945-2988.
